Presentation Overview

- 30 minutes: 20-25 min talk time, 5-10 min Q&A
- Topics
 - Understanding US DoD 8140, 8570 and 8570.01-M
 - Who must comply with these directives?
 - What certifications fall under this umbrella?
 - Marketing opportunities at all levels of government
 - Where the CFR fits into this picture
 - Further resources & information

Understanding US DoD 8140, 8570 and 8570.01-M

- On 8/11/2015, 8140 DoD Directive went into effect
- 8140 replaces 8570, still uses 8570.01-M
- Defines specific IT certifications that DoD employees and contractors must possess to occupy specific job positions
- Documented in <u>DoD Approved 8570 Baseline Certs</u>
 - Covers positions at 3 levels, across up to 5 categories
 - 25 specific certifications named
 - Various positions mandate 1 or more certs

8570.01-M Approved Baseline Certs

Source: <u>IASE DoD Approved Baseline Certifications</u>

In the Baseline Chart?

Acronyms

IA Information Assurance

IAT IA Technical

IAM IA Management

IASAE IA System Architects & Engineers
CSSP Cybersecurity Service Provider

- Certifications
 - Logical Operations: CFR
 - CompTIA: A+, Security+, Network+, CASP
 - Cisco: CCNA-Security, CCNP-Security
 - EC-Council: CEH
 - ISACA: CISA, CISM
 - ISC-squared: CAP, SSCP, CISSP, ISSAP, ISSEP, ISSMP
 - SANS GIAC: GCIA, GCED, GCFA, GCIH, GICSP, GSEC, GSLC, GSNA
- Items in Green = <u>Best InfoSec Certs for 2017</u> (Tom's IT Pro)

Who must comply?

- The DoD Workforce
 - All branches of the military (DoD)
 - All contractors who work for "DoD Components"
- IA functions focus on development, operation, mgmt. & enforcement of security capabilities for systems & networks.
- Who else plays on this field?
 - Security providers
 - Consulting companies
 - Other governments: state, county, municipal

Marketing Opportunities

- Training for DoD employees and contractors
 - Classroom, instructor-led training
 - Online self-paced & instructor-led training
- Training delivery
 - Learning Management System content and services
 - Textbooks, study guides, drill and practice materials
 - Hands-on labs and practical exercises
 - Practice exams and simulations
 - Expert Q&A and student support
- Enabling tools and technologies
 - Simulated attack and incident response mgmt.
 - Learning management, monitoring & support
 - Virtual labs and simulations
 - Mobile apps for content delivery, drills, practice tests and more

DoD IA Market Data

- Number of IA jobs in DoD = $^{\sim}$ 95,000*
- Equal number in contractor workforce
- Other compliant jobs in USA also roughly equal
- Total: around 300K IA jobs that REQUIRE one or more of the 8570 certifications
- Cyber Security market is projecting major labor & skills shortages
 - Forbes: 200K-plus jobs unfilled in US (2016)
 - Shortfall could reach 1M jobs by 2020 in USA alone
- US CyberSecurity budget for FY 2017: \$19B**

^{*}Federal News Radio "Navy takes on demand side of cyber workforce" 9/9/16; Active Duty Military Personnel by Branch

^{**}Forbes "The Fast-Growing Job with a Huge Skills Gap: Cyber Security" 5/16/17; "One Million Cybersecurity Job Openings in 2016" 1/2/16

Where to Market?

- DoD & Feds: Military, CIA, NIST, technical agencies
- Contractors: Government Contractor Directory
- State Governments: IT or IR Agencies/Departments
 - Opportunities for reskilling under- or unemployed residents
- County and Municipal: Ditto above
- Colleges and Universities: Community colleges & up
- Direct marketing to current and aspiring IT pros

Best Opportunities: SSOs

- SSO = Security Services Organizations
- Primary types
 - In-house groups/departments
 - Security Services Providers
- DoD
 - DISA, DHS, FBI CyberCrime, DoD CIO, US Strategic Command, NSA, Defense Cyber Crime Center, CSIAC
- Security Services Providers
 - Beltway Bandits: SAIC, CACI, DynCorp, Omniplex World Services, DXC Technology, ManTech
 - Aerospace: <u>Northrup Grummond</u>, <u>Lockheed Martin</u>, <u>GD</u>, <u>Boeing</u>, <u>GE</u>
 - Big 4 Accounting firms: <u>Deloitte</u>, <u>PwC</u>, <u>KPMG</u>, <u>E&Y</u>
 - MSSPs: list from <u>CyberSecurity ventures</u>

Where CFR Fits

- Certified First Responder
- Qualifies for CSSP Analyst, CSSP Incident Responder
- More senior, demanding positions
 - Analyst deals with examining, interpreting and implementing security policy and technical controls
 - Responder deals with security incidents as they occur, and works through to resolution and remediation
- Strongest competition is the Certified Ethical Hacker (CEH), but SANS GIAC certs also strong
- Best opportunities within dedicated security service organizations (in-house & service providers)
